### REMARKS

This amendment is in response to the Office Action mailed on September 13, 2005, wherein Claims 1-10 were rejected. Claims 1 and 9 have been amended and Claim 11 has been added, Claims 1-11 remain pending.

#### Claim Rejections Under 35 U.S.C § 102

On page 2 of the Office Action Claims 1, 2, 4, 5, 9, and 10 were rejected under 35 U.S.C § 102 as being anticipated by Bolz et al. The Examiner stated that Bolz et al. discloses an electronically controlled switch S3 coupled to the first battery and a second battery. Applicants direct the Examiner to Figure 4 and column 9, lines 1-0 of the Bolz et al. specification. A DC/DC converter electrically couples B2 and B1 through switch S3. Batteries B2 and B1 do not share a common electrical node or voltage reference. Applicants have amended Claims 1 and 9 to better describe the present invention with first and second batteries sharing a common electrical node and/or direct electrical connection upon closure of the electronically controlled switch. Bolz et al. does not teach or suggest the newly amended claims.
